

### **Biography:**

Enclave started in 2008 to worship the glory of 80's Heavy Metal and developing their own version of fast thrashing tunes. Based on Bay Area Riffs and traditional melodies Enclave recorded their first Demo in 2009 adding drummer Martin Gschöpf to their crew. After several years of lineup changes Rainer took over the position as lead singer and the band went to the studio to record their debut album United Desperation in 2012. Great reactions from press and fans made it possible to improve their live presence and took Enclave to tour across Austria and surroundings. Their second album New Age Disorder followed in October 2016, accompanied by a promotion campaign via Vlad Promotions that led to several reviews/interviews in international Fanzines, Webradios and sales to distributors abroad. Ever since their foundation Enclave made an impact on the scene as intoxicating live act and creative force to be reconned with.
